

GLOBINGO

This is a Globingo card. Beneath are some statements about people and places around the world. You will need to find a person to match each of the statements. Each time you find someone, write their name in the space next to the statement, and then what the place is.

Find someone ...	their name	the place
Whose family car was made by a Far Eastern company		
Who has been on holiday outside the continent they live in		
Who is wearing something which was not made in their own country		
Whose parents were born outside of the country they presently live in		
Who can speak more than one language fluently		
Whose name - or part of their name - doesn't come from the country they live in		
Who has a friend on social media who lives more than 2,000 kilometres away		

The world is changing - and seemingly shrinking - fast. We are tied more and more to people and things in faraway places.
